

Mooloolaba to University (M2U) Active Transport Corridor

Project summary

Sunshine Coast Council is undertaking planning to deliver a safe and inclusive active transport corridor between Mooloolaba and the University of the Sunshine Coast.

When complete the project will offer a 10-kilometre route for people walking, riding and using personal mobility devices including e-scooters. It will link schools, shopping centres and the communities of Mooloolaba, Mountain Creek, Sippy Downs and Buderim.

The M2U Active Transport Corridor, which follows the Queensland Government's Principal Cycle Network Plan, has been divided into eight stages for delivery. These stages are:

- Stage 1: Foreshore to Palm Avenue
- Stage 2: Amarina Avenue to Karawatha Drive
- Stage 3: Molokai Drive to Golf Links Drive
- Stage 4: Golf Links Drive to Dixon Road
- Stage 5: Dixon Road to Stringybark Road
- Stage 6: Ballinger Road to Sunshine Motorway
- Stage 7: Stringybark Road Bridge (under construction)
- Stage 8: Sunshine Motorway to Sippy Downs Drive

Community engagement

Consultation is now open. Between **Monday 4 November and 5pm Friday 29 November 2024** you are invited to provide your input and feedback on the M2U Active Transport Corridor.

We want to understand what is important to local residents and ways to improve safety and accessibility for people walking and riding between Mooloolaba and the University of the Sunshine Coast.

We are currently seeking input on **Stage 1, Stage 2 and Stage 3** which are funded for design and construction by the SEQ Liveability Fund. Other stages will be progressed as funding becomes available.

Scan the QR code below to visit Have Your Say Sunshine Coast and complete the 'Share Your Ideas' project survey.

Further information

You can find further information about the M2U Active Transport Corridor project on Council's website at sunshinecoast.qld.gov.au

A note from your local councillors

We are pleased to announce consultation for the M2U project and encourage you to share your suggestions which will be considered as design progresses. We are committed to working toward the funding and delivery of this important infrastructure project for the benefit of the entire community.

Cr Christian Dickson and Cr Ted Hungerford

Figure 1: The proposed M2U project will link Mooloolaba to the University of the Sunshine Coast.

Feedback received from Phase One community engagement will guide and inform the design, planning and implementation of the project construction. It will help to ensure that project impacts are as minimal as possible.

Figure 2: Artist impression of a potential treatment option that may be used on M2U.
