

Palettes

Trees, Shrubs and Ground Covers

The proposed planting design primarily features coastal, locally native plants and existing species that have thrived along the foreshore. This will create a relaxed, coastal, and environmentally conscious landscape capable of withstanding the site's exposed coastal conditions

- 1. Screwpine
Pandanus tectorius
- 2. Horsetail She-oak
Casuarina equisetifolia
- 3. Prostrate Coast Banksia
Banksia integrifolia var. *prostrata*
- 4. Hairpin Banksia
Banksia spinulosa var. *collina*
- 5. Knobby Club-rush
Ficinia nodosa
- 6. Coastal Boobialla
Myoporum ellipticum

Hardscape and Furniture

A robust furniture palette, suitable for a seaside environment and built to withstand strong, salt-laden wind and rain, is proposed. It features a combination of hardwood timber, aluminium, and stainless steel

The Open Space Landscape Infrastructure Manual (LIM) will provide guidance during the design, development, and delivery.

- 1. Coastal path light wash
exposed coloured concrete
- 2. Timber picnic setting
- 3. Timber seat
- 4. Reuse of existing furniture
- 5. Hardwood timber decking
- 6. Double shower deck
